

Facility Services at a press of a button.

The Peazy way to manage facilities

FACILITY SERVICES MOBILE APP

Industry Leading Tech

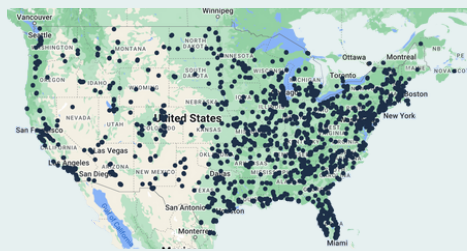

Mobile platform with end-to-end facility services functionality. Create an account and enter a job to receive multiple quotes from qualified and vetted vendors.

Select the best quote and vendor for your job and you'll be able to track the job to completion including payment of services.

Quality assurance through the use of photo and video evidence gives you peace of mind. Geotagging technology allows full transparency and building access information to only be given to the technician if they are on-site.

Top-Rated Vendor Marketplace

Thousands of peer-reviewed subcontractors coast to coast with ability to scale. Gives you the ability to get multiple quotes from vendors without endless phone calls and googling.

Mission

At Peazy, we believe in empowering our front-line workers by equipping them with the right support and resources ensuring that our customers experience unparalleled service.

Real-Time Dashboard

No More Surprises. Our dashboard keeps you updated in real-time, sending early alerts so you can anticipate and address issues or no-shows no matter how many locations you have.
